

## DUAL ENROLLMENT

As an educator and advisor, your goal is to help students to be enrolled, enlisted or employed once they leave high school. The Education Collaborative – comprised of **Savannah State University**, **Savannah Technical College** and **Georgia Southern University** – shares this goal, and wants to partner with you and your institution to reach it.

**Dual Enrollment** is a great opportunity for students not only to prepare for college, but to earn college credits at no cost to them. Core courses are fully transferable between Collaborative institutions and other institutions in both the Technical College System of Georgia and the University System of Georgia – which together represent almost 50 colleges and universities in the state.

However, institutions in the Education Collaborative are more interested in increasing opportunities for regional students than their own enrollment. This means as they continue their individual recruitment efforts, they will also seek a full understanding of each student's future goals and direct them to the institution best suited to meet those goals.

Students may want to choose **Savannah State University** if they are looking for a unique, tradition-rich college experience that only a historically black university can provide.

Students may want to choose **Savannah Technical College** if they are looking for an opportunity to complete a certificate leading to immediate employment, completion of the core curriculum, or an associate's degree.

Eligible students may want to choose **Georgia Southern University** if their goal is to attend a major university, participate in undergraduate student research or actively engage in a university environment.

### Here's what your students need to know:

- In Dual Enrollment, students may take core courses from Georgia Southern, Savannah State and Savannah Technical College.
- Encourage students to enroll as soon as possible – classes fill up quickly!
- Use the Dual Enrollment course directory at [GAfutures.org/hope-state-aid-programs/scholarships-grants/dual-enrollment/](https://GAfutures.org/hope-state-aid-programs/scholarships-grants/dual-enrollment/) to view GA Futures-approved courses for each institution.
